Saab S35F Draken

Danish Air Force
Reconnaissance version

The Draken with its famous double-delta wings is one of the most iconic jetfighters of the 20th century. Built by Sweden as their prime interceptor, the Draken had amazing stability and agility at all speeds and a high climb rate. It was used by Sweden, Finland, Denmark and Austria in altogether 45 years of service.

Unlike the Swedish Reconnaissance Drakens, the Danish ones did not have their guns deleted.
