Saab TF35 Draken

Danish Air Force
heavily weathered version

The Draken with its famous double-delta wings is one of the most iconic jetfighters of the 20th century. Built by Sweden as their prime interceptor, the Draken had amazing stability and agility at all speeds and a high climb rate. It was used by Sweden, Finland, Denmark and Austria in altogether 45 years of service.

The Danes used a special version of the Draken two-seater, which was largely enhanced and the only Draken Two-seater with long rear section.
