# Saab J35A Draken

## F16 Squadron

Swedish Air Force

The Draken with its famous double-delta wings is one of the most iconic jetfighters of the 20th century. Built by Sweden as their prime interceptor, the Draken had amazing stability and agility at all speeds and a high climb rate. It was used by Sweden, Finland, Denmark and Austria in altogether 45 years of service.

This version shows a typical early paint scheme of the Swedish Air Force Drakens.
