SH 1-006-29

Mc Donnell Douglas / Boeing F/A-18 Hornet

RAAF Low visibility

Royal Canadian Air Force, 77th Squadron

The F/A-18 Hornet is one of the most versatile modern combat aircraft. It was probably the first combat aircraft to be developed for both Fighter and Attacker role right from the beginning. It has served for more than thirty years with a number of air forces all over the world.

This version has a grey livery which is meant to let it be difficult to see by enemies.
