

SH 1-006-21

# Mc Donnell Douglas / Boeing F/A-18C Hornet

## Flying Omars

U.S.Navy, VFC-12 "Flying Omars"

The F/A-18 Hornet is one of the most versatile modern combat aircraft. It was probably the first combat aircraft to be developed for both Fighter and Attacker role right from the beginning. It has served for more than thirty years with a number of air forces all over the world.

This version flies with a Aggressor Squadron, that acts as enemies during air combat exercises. It is painted with a livery that imitates the Su-27 Flanker.
