Mc Donnell Douglas / Boeing F/A-18C Hornet

Top Gun

U.S.Navy, Naval Strike and Air Warfare Center

The F/A-18 Hornet is one of the most versatile modern combat aircraft. It was probably the first combat aircraft to be developed for both Fighter and Attacker role right from the beginning. It has served for more than thirty years with a number of air forces all over the world.

This version is used as a so-called Aggressor and acts as an enemy plane during combat exercises of the NSAWC, also known as the "Top Gun" School.
