

Heinkel He-111A

Cantonese Air Force, 1935

The Heinkel He-111 was the principal Medium Bomber of the German Luftwaffe in World War 2. While gradually replaced by newer types, it served until the end of the war in various roles. The Spanish license-built version, the CASA 2.111 even served until long after the war.

The A-type was the first Bomber version, using the same engines as the early airliners, easily recognizable with exhausts in top and propeller in the bottom.
