

# Il-2UT cockpit

## instructions

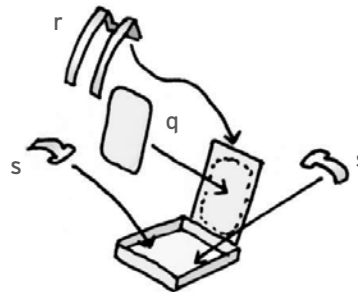

Part designations use lowercase letters so they are not mixed up with parts of the aircraft model

1. glue together the seat

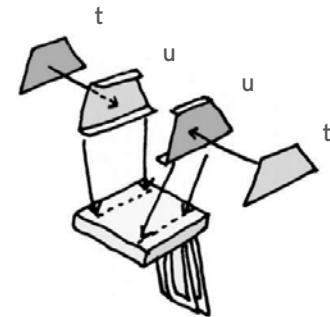

2x

2. add seat belts and pillows

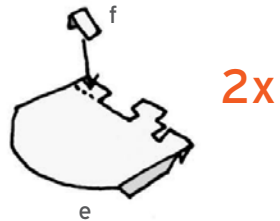

2x

3. glue the seat legs under the seat.

2x

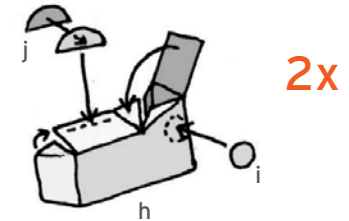

5. glue the side panel  
on the main panel

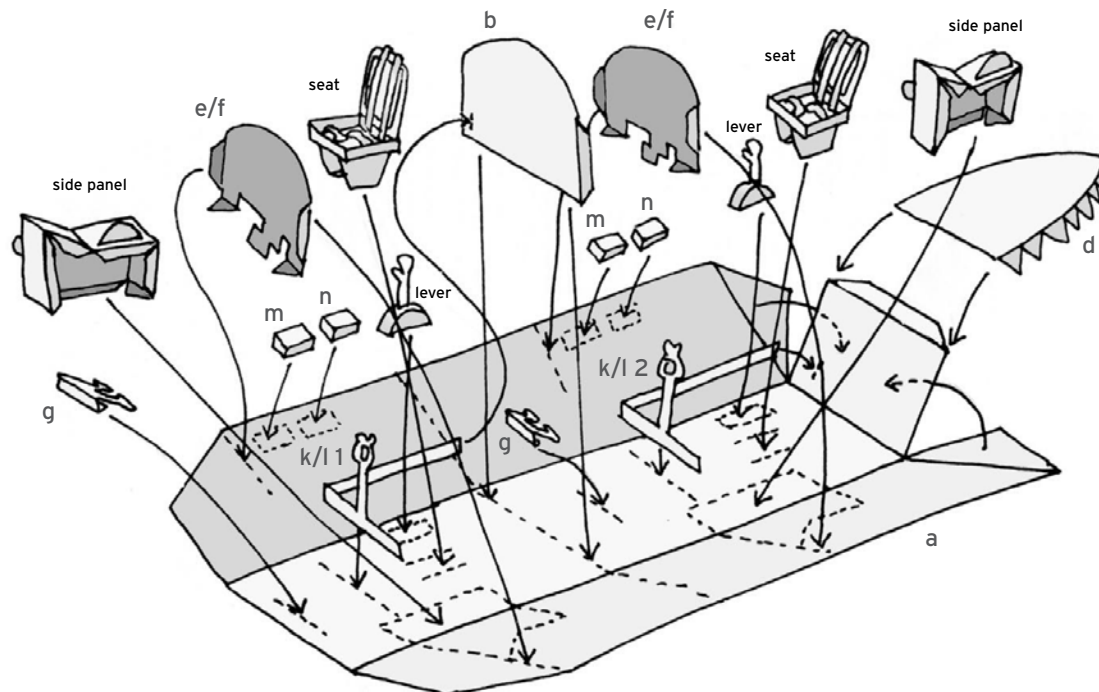

6. build the lever  
for the right hand side

6. build the side panel  
for the left hand side

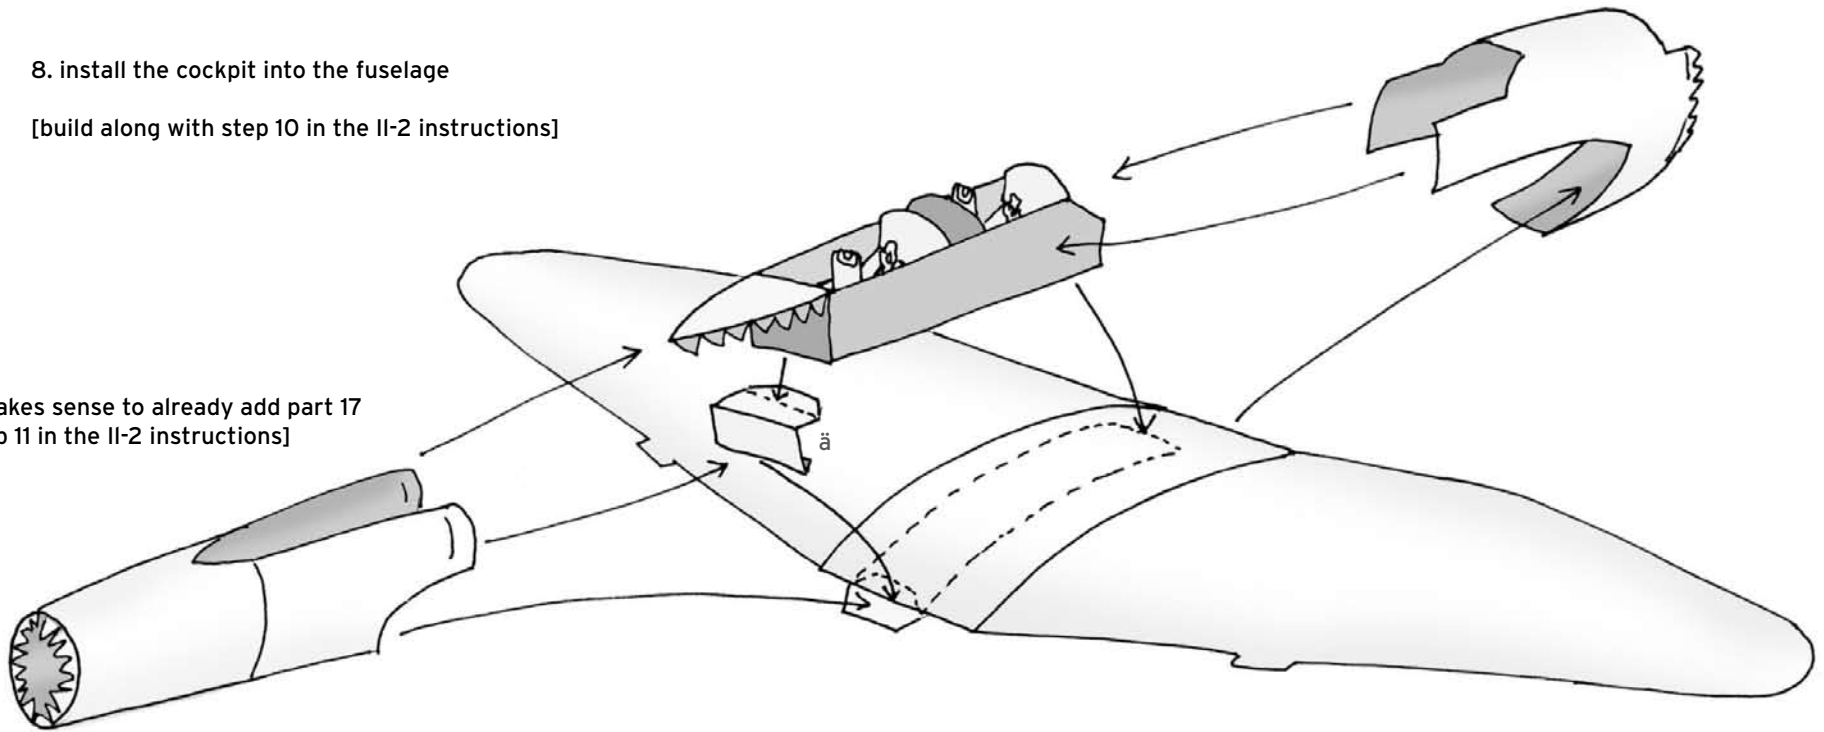

7. glue the parts into the cockpit tub

8. install the cockpit into the fuselage

[build along with step 10 in the II-2 instructions]

it makes sense to already add part 17  
[step 11 in the II-2 instructions]

10. glue the gunsight on the surface of the main panel  
and the hood on top of the rear pilot's panel

9. Build the gunsight
